

11. The story of Asamanjatha

He appeared as the son of King Sagara. Even after becoming a young man, he had no motivation. 'We are in a state of great prosperity, and the country will

join us after our father. We get into things and suffer. He was deep in laziness, thinking that it is our duty to be happy forever. Even after getting married and having children, her attitude did not change. His father did not like

his behavior. He decided that the country would perish if left to him. He arranged that his country should be ruled in his name after him. Because of this, Asamanjathan has to wander around like a walking corpse without any distinction. He taught the world that even if wealth rules the whole world, it is wonderful for those who have wealth to achieve the best benefit.
