5. Story of Angada

In the country of Magadha there lived a man named Angada in a city called Varuna. Ivan Rayasinghan is the younger brother of King Kunnila. He who excelled in education used to worship Thirumaladi himself with Perumal every day. He had a beautiful diamond watch. He wanted to wear Ammani to Perumal who woke up in Sakanath. His brother was asking him to give Ammani to him. But he did not give. So he got angry. He sent a woman to kill him by giving him food mixed with manure. She gave him food mixed with nanu according to his choice. He started eating. Distraught, she told him the truth saying that he was going to talk in vain. However, he did not refrain from citing it. His brother created it to fulfill his wish. Life is not gone. He survived by the grace of God who believed. When the brother came to know this, he felt sorry for himself. The world has thus seen that the one who seeks the desirable civilization is the one who enjoys it even if he finds it boring.
