

## SIVA-JNĀNA -BŌDHA, SŪTRA 2

- *Siva is one with the souls as **abētha**, apart from them as **bētha** and along with them as **bēthābētha**.*
- *Siva is forever inseparable with his conscious kinetic potency called **Sakthi**-the instrumental cause, send us the spirit souls through the cycles of births and deaths as per our individual twin karma.*

*Note: **Instrumental cause** is a cause that acts only by insofar as it is moved by another in contrast to the efficient cause which operates through itself. Instrumental cause helps the causal chain to revolve without contributing labour-wise or material-wise to it. **Sakthi** is the instrumental cause in the causal chain, as the inseparable aid to Siva the **principal efficient cause**.*

*This second **Sūtra** of **Siva-Jnāna -Bōdha** is explained in **Siva- Jnāna- Siddiyār** Songs 91to185.*
